

FIELD-TESTED

Turn Accessories into Add-on Revenue

*We make your Mobile Solutions, **Truly Mobile.***

Protecting Devices. Improving Frontline Productivity.

UltimaCase, a brand of **AGORA Edge**, provides innovative carrying, mounting, and protective accessory solutions for a wide range of mobile computers, barcode scanners, printers, tablets, and POS devices.

Our mission is simple: keep technology protected, accessible, and ready at the point of use.

Driven by end-user feedback and years of real-world performance, our solutions are trusted by customers ranging from startups to global enterprises.

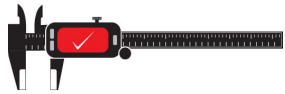

UltimaCase began with custom solutions, and that same focus continues today. Whether your operation requires insulated cases for freezer environments, weather-resistant protection for outdoor use, dust and debris protection for industrial settings, or a unique carry or mounting method, we design solutions around real work conditions.

At UltimaCase, custom isn't an option — it's our business.

Carry, Mount, Wearable, Customize.

Please contact us, so we can design you a solution to your requirements.

is a custom soft goods solutions company. For over three decades, **AGORA** has delivered soft goods solutions (from prototype to product in-hand) to customers who are relentless in pursuit of the performance and quality of their product.

AGORA's design team is innovative, keeps abreast with new materials and processes to provide custom solutions – **We welcome challenges.**

AGORA's manufacturing team harnesses today's manufacturing technologies, continues to improve processes and delivers products through short production windows and at competitive price points; all this, with a sense of urgency.

Our tagline "*An Outside Edge*" symbolizes the competitive edge our customers gain, as a result of working with **AGORA**.

We also offer **UltimaCase** brand accessories for the Mobile Computing Industry.

We are committed to your success, because that's how we measure ours.

We believe in a better way to design and manufacture soft goods that enhance your products and ideas.

Our ISO 9001 and ISO 13485 certified headquarters, located in sunny St. Petersburg, FL includes design, manufacturing, 3D printing/prototyping, R&D, testing, and administrative offices.

AGORA OS3 includes our new facility in the Philippines. This facility equips us to fulfill large orders and offer a more attractive price point to our customers, all without sacrificing quality. The 75,000 sq ft facilities are ISO 9001 and ISO 13485 certified and are owned by AGORA, not by a middleman operation that could compromise quality and delivery time.

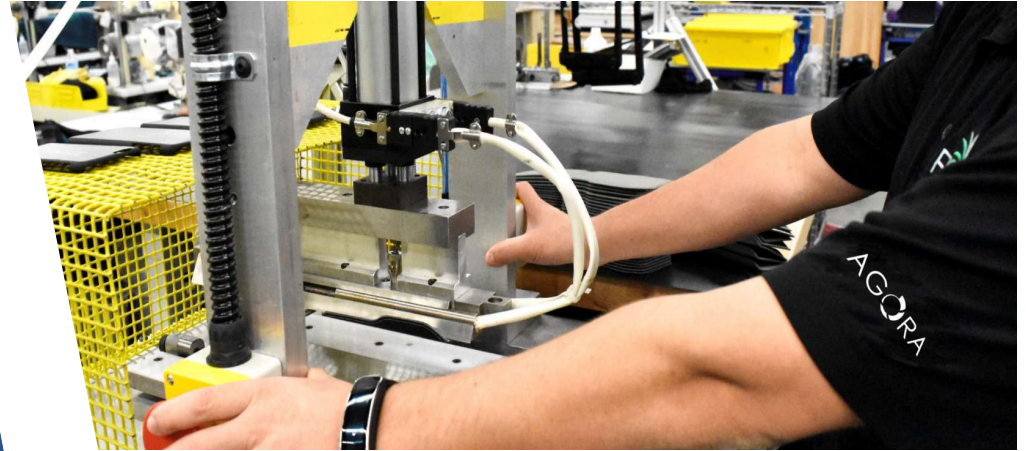

AGORA

delivers custom designed solutions, which are customer driven, (from prototype to product-in-hand) for people who refuse to compromise quality or price.

AGORA harnesses today's technology to create customized products through short production windows and at competitive price points.

We are committed to your success, because that's how we measure ours.

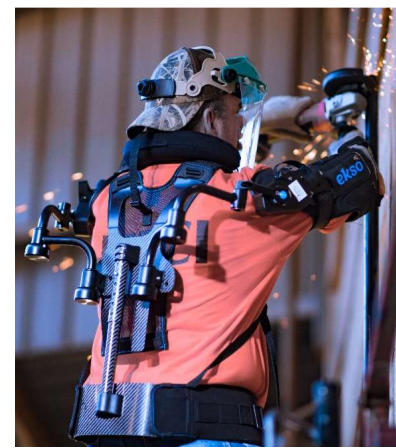

AGORA

serves a variety of markets and industries.

We are also a Supplier–Partner for major OEMs such as Zebra and Honeywell. Our products are designed for an application, in collaboration with end users and have been proven in the field.

Our industries include:

Fire & Safety, Industrial Safety,
Medical and Mobile Computing

We believe in soft goods design excellence. Our design team represents the culmination of extensive soft goods materials knowledge, expert pattern engineering, genuine passion for product design, and the open-mindedness to constantly pursue new materials and techniques. Mix in decades of soft goods manufacturing expertise and see why AGORA's team is best suited to take your idea to market. We offer:

- Unique design and material options
- An In-house Industrial Design team
- Customer, End-User and AGORA design involvement

Phase 1: DESIGN

Phase 2: QUOTE

Phase 3: Design for Manufacture (DFM)

Phase 4: Manufacturing

- First Prototype (2 to 4 weeks)
- Production – once Prototype is approved (2 to 4 weeks)
- We do our best to meet your timeline requirements

Provide us your challenge – we'll craft a solution!
